

NISHAN COLLECTIONS

Nishan Collections is the encouragement to develop my personal concept and visual language on the “Chakras” philosophy, defined through colours, screen printing, art and stones. I will explore all 7 “Chakras” with different collections combining symbols in the bags design. Nishan is a creative process on self reflection and visual moving ideas. The bag you wear has a lift you up message, a declare love to the one.

“Clematis Flower”

The Clematis flower is used on the Bach flower remedies to help you with grounding and earthing yourself, is perfect for the base “Chakra” affirmations. I decided to use it as an essential symbol because of its beauty and message.

This amazing cotton collection is hand painted by the artist Caroline Money and she displays this gorgeous plant in the various stages of its life cycle.

“I AM fully awake at this present moment”.
